**Clinical signs and our response to the emergence of ASF in the Dominican Republic**

*Andrés Pérez, University of Minnesota*

## CONCURRENT SESSIONS

10:10 - 12:10

**Interventions to control and decrease pig mortality**  
**Christian Ramirez (Chair)**

- **Increasing sow milk yield via greater mammary development in prepubertal and late-pregnant gilts** - *Chantal Farmer, Agriculture and Agri-Food Canada*
- **Key areas of focus to improve sow retention rates** - *Sergio Cañavate, PIC*
- **Holistic approach before post-weaning challenges** - *Will López, PIC*

**New developments related to respiratory disease control**  
**Cipriano De Abreu (Chair)**

- ***Mycoplasma hyopneumoniae* gilt acclimation non-negotiables** - *Maria Pieters, University of Minnesota*
- **The importance of understanding PRRS diversity** - *Igor Paploski, University of Minnesota*
- **Attacking respiratory disease in a modern production system** - *Jorge Garrido, Norson*

12:10 - 13:30

**Lunch break and poster session**

13:30 - 15:30

**Senecavirus A epidemiology, diagnostics and control update**  
**Joaquin Alvarez Norambuena (Chair)**

- **Review of the diagnostic process for Senecavirus A** - *Fabio Vannucci, University of Minnesota*
- **New developments on the epidemiology and control of Senecavirus A** - *Guilherme Preis, University of Minnesota*
- **Our experience with Senecavirus A** - *Gonzalo Mena, Agrosuper*

**Diagnostics and monitoring**  
**Marcello Melini (Chair)**

- **Tongue tip fluid and its applicability during the diagnosis and monitoring of diseases** - *Jordi Balielas, GSP*
- **Practical tips when conducting a necropsy** - *Albert Rovira and Albert Canturri, University of Minnesota*

15:30 - 15:45

**Break**

15:45 - 16:45

**Poster session discussion**  
**Maria Pieters (Chair)**

*Laura Alarcón, Universidad Nacional de La Plata - Argentina*

*Alexandra Henao, PIC LATAM - México*

*Juan Sanhueza, Universidad Catolica de Temuco - Chile*

November 17th, 2022

## GENERAL SESSION

9:00 - 10:00

**Charla magistral - Pedro Urriola (Chair)**

**Practical nutritional considerations when feeding pigs during high feed cost scenarios**

*Omarh Mendoza, The Maschhoffs*

## CONCURRENT SESSIONS

10:10 - 12:10

**How are we addressing current swine industry challenges**  
**Patricio Vidal (Chair)**

- **Maxagro and the sustainability challenge: a constant learning process** - *Elizabeth Ellmen Garcia and Pablo Espinosa Lynch, Maxagro*
- **The challenge of maintaining our farm teams intact** - *Victor Ochoa, Swine Works*
- **Pig farming before the sustainability paradigm** - *Miguel Carbajal, Keken*

**Implementation of biosecurity programs and their impact on controlling infectious diseases**  
**Fabian Chamba (Chair)**

- **Building an excellent biosecurity culture** - *Algis Martínez, Cobb-Vantress*
- **Importance of basic biosecurity: Actinobacillus pleuropneumoniae (APP) outbreak in an Iowa finisher** - *Efren Martinez, TriOak Foods*
- **Investigating PED infections and lessons to improve biosecurity in growing pigs** - *Cesar Corzo, University of Minnesota*

12:10 - 13:00

**Wrap up session**  
**Montse Torremorell (Chair)**

*Eduardo Fano, Boehringer Ingelheim*

*Gustavo Pizarro, Pipestone*

*Laura Batista, KUBUS*

\* All hours indicated are in Central Standard Time (the local time of Minneapolis, Minnesota)
